## Designated Waste Bags and Garbage Processing Tickets

### < Designated Waste Bags >

- Designated waste bags are used for Burnable and Non-burnable Waste.
  - The bags are available for purchase from 1 bag at local supermarkets and convenience stores.
1. Tie the bag to prevent the contents from spilling.
  2. When the bag is ripped, repair it with tape.
  3. If you prefer the contents of the bag not to be seen, place them in other bags first.

Size	Price per bag
5-liter bag	10 yen
10-liter bag	20 yen
20-liter bag	40 yen
30-liter bag	60 yen
40-liter bag	80 yen

### < Garbage Processing Tickets >

- Attach garbage processing tickets for waste which does not fit in the specified waste bags, and is one meter in length or less.
  - Tickets are available for purchase from 1 ticket at local supermarkets and convenience stores.
1. Attach garbage processing ticket directly on waste where it can clearly be seen.
  2. Do not place waste in or tickets on a cardboard box or a clothing case.
  3. To prevent reuse, tickets are perforated. Once a ticket is ripped, it can not be used again.

Size of waste	Price
Length or diameter of 50 cm or less	80 yen ticket per item
Twigs and wooden materials with length of 1m or less and diameter of 10 cm or less	80 yen ticket per item
